METTLER TOLEDO

Transfer an activated system from one user to another

There may be reasons to transfer an activated system from one user account to another:

- A customer user leaves the company. The activated system shall be transferred to another user in the same company.
- A company sells an activated system to another company.

How a customer user may mark a system for transfer

Every customer may generate a transfer key for one of his systems and provide the transfer key to any other customer user:
